This data should be helpful to pastors who value back Volumes and  
who want to know if the Heading Data is correct. If this is printed,  
I would appreciate hearing from pastors who have more issues than  
here listed. Use your discretion as to whether or not this shall  
be printed.

## Note Concerning Index:

Many of the entries in this Index occur two or three or even  
four times in order to facilitate use of the Index. The heading  
"Church & Ministry" are entered under both headings in separate  
sections in order to centralize whichever doctrine you concentrate  
on at the moment. It was not thought necessary to list the poems

by title. The earlier volumes have no page numbering, hence reference in some cases are simply to volume and issue. A little paging here will locate the data. In some cases where pages are numbered it was thought sufficient to make reference to the issue only and not the page. Needless to say, items listed sub "bits" "news" & "Litt av Hvert" etc. were not indexed separately except in special cases. It will be appreciated if an error in indexing or in cutting the stencil is reported to the undersigned. In this way a corrected list can be inserted in the "Clergy Bulletin", say at the end of the next volume. I have been informed by one of the former editors that he believes I have a complete set of the "Clergy Bulletin". It will be considered a favor if I am informed of any missing issues.
